How to jam Belkin WeMo Baby Monitor?

2020/04/14

Hello Lissy! Belkin WeMo Baby Monitor is a nice gadget that was developed for, as is it comes from a name, baby monitoring. It is a handy gadget for house automation like all Belkin products line. The device consists of a microphone a camera and Wi-Fi module. It is also 3G and 4G compatible. That baby monitor was made for giving parents a little freedom, without losing a sigh on their kids. The negative side of that device is that that it is only iOS 5 or higher compatible, so it will not work with any other operational systems. The device comes with a free iOS app to obtain data from that monitor. The easiest way to prevent that device from working is to jam the frequencies it is broadcasting on. And they are pretty wide. The device uses 2000-2100 MHz for a 3G connections, 2400 MHz for a Wi-Fi and 2500-2720 or even 720-750 MHz for 4G. Those used frequencies depend on a country greatly. And Jammer-Store luckily has such a device. It is universal 2G/3G/4G and Wi-Fi jammer. It will surely jamm all the broadcastings of that Belkin WeMo Baby Monitor. Thank you for your question and stay safe!
