How can I be safe from FinFisher FinSpy Mobile system?

2020/05/29

Hello Howard! FinFisher is very large company with many various spying solutions, and FinSpy Mobile is one of them, dedicated to the monitoring and spying on all types of mobile phones and smartphones. They have a few ways of infecting your phone with their malicious software like faking the installation of any service app, and those infecting ways are quite effective. When their software is installed, FinFisher or other interested company has total control on your smartphone. They can listen to your calls, read your short messages, even files that just stored on your phone but were never sent to anyone. In addition, they can track your location using GPS system of your smartphone, listen to the microphone or see what your camera can see. FinFisher FinSpy Mobile is compatible with BlackBerry, Android, Windows Mobile, iOS and other operating systems. It uses GSM/GPRS/UMTS, WiFi and GPS frequency bands in order to get what it needs. Thus you need to use FinFisher FinSpy Mobile Jammer and only then you can be sure that this monitoring and infection system can't reach your smartphone and discover things you want to keep in private.
